

Tax Schedule July 1, 2010 - June 30, 2011

- **Real Property is assessed at 100% of market value**

- **State Tax Rate:**
\$0.112 per \$100 assessment

- **County Rate:**

- **Fire tax:**
NOTE: Howard County has 2 fire districts - a metropolitan district and a rural district. The rates for those districts are...

Metropolitan District - 13.55 cents per \$100 assessment

Rural District - 11.55 cents per \$100 assessment

Howard County law states that the revenues generated by the fire tax are to be used for all fires and emergencies occurring in the district where the tax is collected. However, there are no district restrictions, nor should there be, on where stations and personnel respond to calls.

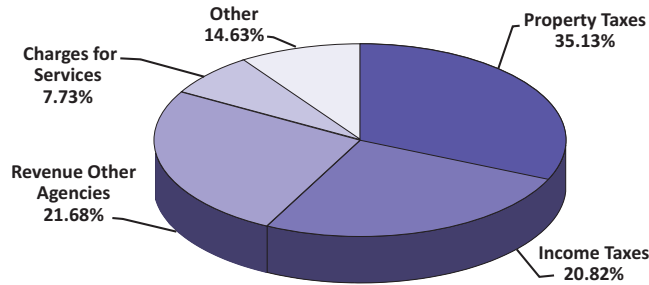

Constant Yield Tax Rate

In the last taxable year (FY 2010), Howard County's real property tax rate as of July 1, 2009 was \$1.014, and the certified assessment of the net assessable real property as of July 1, 2009 was \$38,132,423,425. The assessment multiplied by the rate produced real property tax revenues of \$386,662,774.

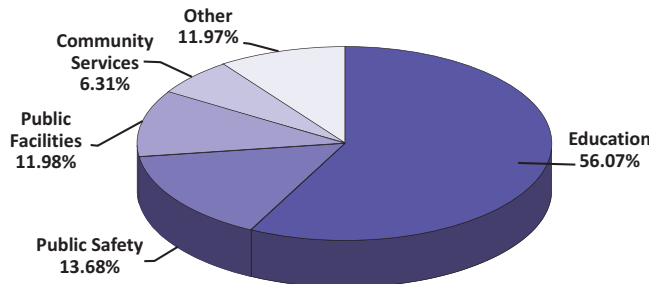

For this taxable year (FY 2011), the certified assessment of the net assessable real property is \$38,858,063,807. To produce the same real property tax revenues as last year the real property tax rate would be \$.9951. This rate is called the constant yield tax rate.

For this taxable year (FY 2011), the actual real property tax rate is \$1.014, which is different from the constant yield tax rate. The rate is .0189 cents more than the constant yield tax rate and will produce in real property tax revenues \$7,344,174 more than would be produced by the constant yield tax rate.

Senior Tax Credit

A credit of 25% of County Property Tax is available for senior citizens age 70 and older with an annual income of \$72,850 or less and net assets under \$500,000, not including the value of their home, but including qualified retirement plans.
